Verricom Systems Testimonial

Thanks are due to my old friend,
Who unplugged an email that wouldn't send
I don't know which it was, I don't quite care

My Fairy Godmother said "Don't despair"
But I said "It's stopped the others I needed to send
It's enough to drive one round the bend"

So,
To avoid a right royal Pantomime this Xmas with your new games and laptops
I recommend you listen to Verricom Systems for advice – they're Top of the Pops

Thank you Guy
