Testimonial to James Rice of James Rice & Company

Dear James,

After the stress and strain of moving into a new house and all the fun and games that comes with it including unpacking unmarked boxes and wondering why we brought with us items that we had been waiting to throw out for years, we were not looking forward to the inevitable task of stamping our mark on our new home.

An ex-member myself, when I approached one of your colleagues he immediately recommended you for the job as a trusted member of BNI. Once contact was made you were fast to respond and after having paid your first visit, it was plain to see that we had made the right choice in not trying the job ourselves.

The initial idea was to do just a couple of rooms, and your team were very helpful in fitting in around my time schedule as I am self employed and work from home in my business. There was a minimum of fuss and bother, they kept themselves to themselves and at times I could have forgotten they were working in the room next door. Once the rooms were painted they looked far better than we had expected them to do and as a result you were back in to do more work which again was finished superbly with no mess or paint spots anywhere!

I would therefore not have any hesitation in recommending you to any of my friends and colleagues should I hear anyone mentioning they are in the market for a painter and decorator, and once again would like to extend my thanks to you and your team for doing such a great job in making our house our home.

Yours sincerely

Caroline Burr
