Dear Richard,

Testimonial to Richard Oldfield of Newmans of Maidenhead Ltd

During the last couple of weeks I have been endeavouring to keep Richard and his team busy.

So far Newmans of Maidenhead have MOT'd my wife's Ford Fiesta, fixed a leak in the cooling system, replaced the key code in the radio and given the car a service.

The reason I take cars to the other side of Maidenhead and leave them to the tender mercies of Richard, Stuart, and that faithful old retainer of a mechanic, Mr. Happy, is that they always let me have a courtesy car to get back home.

I am now used to driving these cars. You soon get the hang of driving a car with no power steering, and make sure you leave a ten yard gap between you and the parked car in front, so you don't need to make a 58 point manoeuvre to pull out into the road again.

Another good thing about Richards's courtesy cars is they don't use any petrol. The petrol gauge always shows empty, and nobody fills them up, but they still keep going.

Today, Richard is going to give my Renault its first MOT. We will be swapping cars in the car park after the meeting. I wonder if it has enough petrol to get me home.

Here's hoping,

Keep up the good work.
